# Akash R

**Java Full Stack Developer** | Spring Boot | React.js | PostgreSQL
+91 9739625103 | akashr.official7@gmail.com | Bengaluru, India
LinkedIn | GitHub | Portfolio

## Professional Summary

Java Full Stack Developer with hands-on experience building and deploying web applications and REST APIs using Java, Spring Boot, Spring Security, React.js, Hibernate/JPA, and PostgreSQL. Developed e-commerce and pharmacy applications featuring JWT authentication, role-based authorization, Razorpay integration, prescription OCR, and medicine matching across 250k+ records. Completed a web development internship building frontend interfaces with JavaScript and solved 100+ Data Structures and Algorithms problems in Java.

## Technical Skills

**Languages:** Java, JavaScript, SQL, HTML5, CSS3
**Backend:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, JWT, REST APIs, Maven
**Frontend:** React.js, Axios, Bootstrap, Tailwind CSS, Responsive Design
**Database:** PostgreSQL, MySQL, JDBC, SQL Joins, Query Optimization
**Cloud & Tools:** Docker, Git, GitHub, Render, Vercel, Postman, Swagger, AWS (Serverless fundamentals: Lambda, API Gateway, SQS, SNS)
**Core Concepts:** OOP, Collections Framework, DSA, Exception Handling, Multithreading, Design Patterns

## Projects

**Full Stack E-Commerce Application** | GitHub Repository
*Languages: Java, JavaScript, SQL | Technologies: Spring Boot, React.js, PostgreSQL, Spring Security, Razorpay*

- Developed REST APIs for Product, Cart, Checkout, Order, and Payment modules using Spring Boot and MVC architecture; integrated React.js using Axios.
- Implemented JWT authentication and role-based authorization with Spring Security to protect application endpoints.
- Designed relational data models using PostgreSQL, Spring Data JPA, and Hibernate; integrated Razorpay payment processing and inventory updates.
- Tested APIs using Postman, documented endpoints with Swagger, and deployed the backend on Render and frontend on Vercel.

**MediPharm – AI-Assisted Pharmacy Platform** | Live Demo
*Languages: Java, JavaScript, SQL | Technologies: Spring Boot, React.js, PostgreSQL, Tesseract OCR*

- Extended the e-commerce application into a pharmacy platform with prescription upload, OCR-based text extraction, and AI-assisted medicine-name normalization.
- Integrated an Indian medicine dataset containing 250k+ records in PostgreSQL and implemented fuzzy medicine matching using `pg_trgm`.
- Developed Java-based image-validation heuristics using EXIF metadata and pixel-level analysis to flag potentially AI-generated prescription images.

## Experience

**Full Stack Web Development Intern** Aug 2025 – Nov 2025
Unified Mentor Pvt. Ltd.

- Built the frontend of an internship project using HTML5, CSS3, and JavaScript, turning requirements into responsive, working user interfaces.
- Implemented responsive layouts and interactive features with JavaScript and debugged UI issues across screen sizes and browsers.
- Used Git and GitHub for version control, debugging, and collaboration.

## Education

**Bachelor of Computer Applications (BCA)** Expected 2027
Krupanidhi College of Commerce & Management CGPA: 7.8/10

## Certifications

- AWS Educate: Getting Started with Serverless – Training Badge, Amazon Web Services. Verify on Credly
- Full Stack Web Development Internship Certificate – Unified Mentor Pvt. Ltd. Verify Certificate

## Achievements

- Solved 150+ Data Structures and Algorithms problems in Java. LeetCode Profile
- Participated in DECIPHER-X 2026, a national-level 24-hour hackathon organized by St. Francis College, Bengaluru, in the Security Track.
